The 15th China International Exhibition of Metropolitan Railway Transportation 2020

From 2002 the China International Railway Conference for Urban & Intercity Transit (CIRC) and the Rail+Metro China Show have formed two pillars that together have shown the way through 18 years of full-throttle railway development, playing key witness to the country’s transport revolution.

With the launch of China’s “One Belt One Road” global economic strategy, China’s advance in rail transit technology manufacturing and railway infrastructure construction has become far and away the shining light of economic development for export. Originating in Shanghai, CIRC and Rail+Metro China follow the city of Shanghai’s unique driving principles of “Branding Expertise, Pursuing Excellence, Enlightening Wisdom, and Humble Attitude”, which guide the direction of our efforts that are embedded in the concepts of Cooperation, Innovation, Reputation, and Civilization.

In 2020, CIRC and Rail+Metro China will be held in Lujiazui, the beating heart of Shanghai. The conference and exhibitions will be deeply integrated so as to best serve the global rail transit industry in attendance, with world-class standards applied to our diverse range of professional meeting activities and showcasing both topics and exhibits in areas of relevance to the entire Asia-Pacific region.

2018
Conference endorsed under APEC’s Transport Working Group (PT-WG) “Mass Transit Urban Rail Initiative” to promoting collaboration and knowledge sharing of best practice in the mass transit field between APEC’s 21 member economies.

2019
The conference gained approval under APEC’s Policy Partnership for Science and Technology Innovation (PPSTI) and China’s Ministry of Science and Technology (MOST) for the launch of an “Innovation in Public Transport” (INPUT) Competition. Its aim is to promote and encourage technological innovation and improvement in the domestic and international rail transit industries through competition activities. It is planned to commence in 2020.

2020
We Will Bring You:
- More than 200,000 Viewers and Conference Delegates, Assisting in the Synthesis of Scientific and Technological Accomplishment
- Over 200 Invited Speakers at Lujiazui
- More than 10 High-level Summits
- Over 200 Major Conference Areas
- Over 3 Days Linking up the Rail Transit Industry Supply Chain
- Over 3 Major Conference Areas
- Over 6 Exhibition Areas and 2 Exhibition Halls
- Over 5 Major Conference Areas
- Over 2 Day Conference, including 1 Main Forum, 9 Themed Forums, 127 Speakers, and 1500 Industry Delegates
- Over 2 Day Conference, including 1 Main Forum, 9 Themed Forums, 127 Speakers and 1500 Industry Delegates
- Over 3 Days Linking up the Rail Transit Industry Supply Chain

In 2020 We Will Bring You:

Exhibition Hall 1: Huaxia Hall
Infrastructure and Rail Operations Hall
- Rail Transit Operators and Supporting Enterprises
- Infrastructure Construction and Tunnel Engineering
- Smart Transport Technology

Exhibition Hall 2: Shanghai Hall
Vehicle Equipment and Maintenance Hall
- Railway and Urban Rail Transit Vehicles
- Vehicle Supporting Systems and Components
- Vehicle Overhaul and Maintenance

3F Conference Venue
Forum Activities
- The Opening Forum of CIRC 2020: Technological Innovation & Intelligent Manufacturing in Rail Transit
- The Urban Railway Development and Integrated Hub Construction Forum 2020
- The 33rd Annual Meeting of the International Chinese Transport Association (ICTPA)
- The High-Speed Freight Rail Future Development Seminar 2020
- The Urban Rail Transit Development Summit 2020

5F Conference Venue
Forum Activities
- The 13th Asia-Pacific Transport Development Conference
- The Smart Rail Station and Smart Railway Construction Forum 2020
- The Mass Transit Automated and Unmanned Technology Summit 2020

1F Conference Venue
Forum Activities
- The 9th International Forum on Rail Transit TOD & PPP 2020
- The International Forum on Rail Transit Operators and Supporting Enterprises 2019
- The International Forum on Rail Transit Operators and Supporting Enterprises 2020
- The International Forum on Rail Transit Diversification 2020
- The Urban Rail Transit Development and Integrated Hub Construction Forum 2020

7F Conference Venue
Forum Activities
- The Rail Transit Smart Operation and Maintenance Forum 2020
- Sub-forum 1: Vehicle Repair and Maintenance
- Sub-forum 2: Signaling and Electrical Systems
- Sub-forum 3: Vehicle Supporting Systems and Components
- Sub-forum 4: Intelligent Power Supply
- The High-Speed Freight Rail Future Development Seminar 2020
- The Urban Rail Transit Development Summit 2020

3F Conference Venue
Forum Activities
- The Opening Forum of CIRC 2020: Technological Innovation & Intelligent Manufacturing in Rail Transit
- The Urban Railway Development and Integrated Hub Construction Forum 2020
- The 33rd Annual Meeting of the International Chinese Transport Association (ICTPA)
- The High-Speed Freight Rail Future Development Seminar 2020
- The Urban Rail Transit Development Summit 2020

5F Conference Venue
Forum Activities
- The 13th Asia-Pacific Transport Development Conference
- The Smart Rail Station and Smart Railway Construction Forum 2020
